

Refill & Save

Shop our eco-friendly laundry, cleaning and body products online and refill them again and again using our 500ml bottles.

Eco Communities Refill & Reusables

Community-led. Not-for-profit. Fighting single-use plastic across Cheshire. Eco Communities Refill & Reusables is a community-run, not-for-profit initiative with one clear mission:

to reduce single-use plastics and make sustainable living easier for everyone.

We are proudly volunteer-led, with no paid staff – every purchase goes straight back into growing the project, expanding refill access, and supporting environmental action in our local community.

Join us and be part of a practical, positive movement for change.

Refill Scheme: Buy once. Refill again and again.

Shop our eco-friendly laundry and body care products online and use our reusable 500ml bottles to refill again and again.

- Local delivery around Chester
- Refill Hubs check our website for locations.
- Buy online, refill at the hub or ask for doorstep refill at checkout.

Our refill range is growing, so check out all our products online, and sign up to our newsletter (using the QR code) to hear where we'll be next.

Eco Products: Better products. Lower impact. Browse a growing selection of sustainable, low-waste and plastic-free alternatives in our online shop.

Delivery and event collection options are available, making it easy to swap everyday items for more planet-friendly choices.

Reusables Hire: Reduce waste at your next event. Hosting a party, school event, community gathering or festival? Hire our reusable party kits and drink cups and dramatically cut down on disposable waste. Perfect for everything from kids' parties to large festivals. See online shop for more details.

Why Fill Products?

Fill Refill Co. is the original zero-waste refill brand. Fill Refill are pioneers in closed-loop, refillable household and personal care products, laundry, cleaning, body and hair products designed to cut waste and actually perform well. They're exactly the kind of products we're proud to stock because their mission aligns with ours: single-use plastic is over. Made in Britain

at their own family-run

factory in Northamptonshire.

With all these accreditations.

How to Use Guide

Laundry liquid

Non bio. Low temperature. Hand/machine wash.
Machine wash: light soil 20ml | medium soil 40ml | heavy soil 60ml.

Hand wash: dilute 1–2 capfuls in wash basin. Soak for 5 mins & rinse in cold water. Always follow garment care instructions and machine manufacturers' guidelines.

Fabric conditioner

Add 20–50ml of conditioner to machine dispenser.
Do not pour directly onto fabric.

All purpose

Spray onto surface. Leave for 15 seconds. Wipe.
Cleans & refreshes washable hard surfaces.

Everything clean

No problems only dilutions. Add water to make kitchen clean, all purpose or floor clean. Make what you need. Keep for a week. No streaks.

Wash up

Tough on dirty dishes. Gentle on hands.
A few pumps will clean a bowl of washing up.
(10–15ml, 2–3 teaspoons) for a bowl of washing up.

Micellar water

A gentle cleanser to remove makeup & impurities.
Cleans, calms & hydrates skin. Apply to reusable pad.
Gently wipe face until makeup is removed. Follow with a spritz of natural fill refill rose water hydrolat or your favourite toner. Suitable for all skin types. Repeat morning & night.

Each one of us can make a difference. Together we can make a change.

Once you have refilled your bottle 5 times, every time after that is a carbon saving.

Once you have refilled your bottle 5 times, every time after that is a carbon saving.

DID YOU KNOW?

All refillable glass bottles used 25 times and then recycled, produce 85% fewer climate emissions than single-use plastic and 70% less than single-use plastic bottles.
